

SUNSHINE NEARS RECORD IN JUNE

The month of June came nearly establishing a new record for the temperature at this station, according to the monthly report issued today by C. D. Asher, the government observer. The highest was 83 on the 27th and the lowest 29 on the 1st with a mean of 67. The highest previous mean temperature was 72 last year which holds the record for heat in this section. The greatest heat ever attained at this station was 92 and the lowest 26. The precipitation was a trace compared with 85 of an inch last year leaving a deficiency of 4.47. The great achievement was in the sunshine record which averaged 99 per cent time with 72 days showing 100 per cent of sunshine which was exceeded only by 1918 when the sunshine was reported at 98 per cent of the possible. Only one cloudy day was reported in the whole month.

BETTER ROADS INTO GOLDFIELD

The automobile road between Tonopah and Goldfield has, in the opinion of local automobile owners, passed the stage at which it could be properly called a highway. It has become a nightmare of ruts, bumps and stones and it is believed the time has come to abandon it to the house movers who are responsible for the condition, says the Goldfield Tribune.

At the long stretch where there are three parallel roads, the last where the thoroughfare is in reasonable condition, the house movers have destroyed one road and are starting to ruin the second. The third will follow and this will finish the old driveway for automobiles.

Within the past few days wagons used by movers, running on the outside of the auto line tracks, have skirted into the road, which in general is in such condition that Goldfield's tire bill because of it is becoming heavy.

Some way of securing a road from which the house movers can be forbidden must be devised quickly and for this purpose J. O. Wainwright, A. I. Barry and W. S. Phillips, who recently formed themselves into a committee, have called a meeting of automobile owners to meet at the court house on the evening of July 2.

There are over 250 automobiles in this area and practically all of them owners are frequent users of the present road to Tonopah.

There is a road available that with repairs will be an excellent one. This is the road through Diamondfield which, with the exception of a short stretch at the busy toll is one of the best thoroughfares in the southern part of the state from Goldfield to where the road starts. It is the repair of this road that will be considered at the meeting on July 2.

Will Travel Overland To the Paradise Mine

W. C. Ralston, J. R. Kendall, Tom Kendall and J. J. Wainwright leave in the morning for an overland trip to the Paradise mine in Humboldt county, recently acquired by these gentlemen as part of the Reno Divide Mining company. The party will stop over tomorrow night at Austin and continue next morning returning from the destination within four days. The property has produced over \$3,000,000 and paid dividends of \$1,250,000 from ore that assayed \$70 going to the mill during the early eighties. The old dump was sampled in 1906 by T. L. Oddie and E. S. Chafey who reported the presence of 11,000 tons of \$22 ore and 14,000 tons that run over \$17.

NOTICE GIVEN POWER USERS

Notice of Prearranged Shut Down of Electric Power At Tonopah on July 4th.

There will be an interruption of light and power service for a period of two hours, from 7 a. m. to 9 a. m. in order to make necessary repairs at the substation. At the Division District there will be an interruption of light and power service from 7 a. m. July 4th until 7 p. m. July 5th, in order to change voltage of distributing lines from 6600 to 11,000 volts, which is necessary in order to provide better service in the future.

This change will involve the use of a separate bank of three 500 k. w. high tension transformers, installed at the Tonopah substation of the power company and will also necessitate the changing of connections on the primary side of all transformers now installed in the Divide Mining District, which change will be made by the power company with no expense to the power consumers.

The primary fuses on all transformers installed in the Divide District will be pulled by the power company, thereby disconnecting all electrical apparatus from the distributing system. The necessary changes will then be made in the wiring of the transformers and each plant tested out by the power company with the 11,000-volt current before turning same back to the consumer for operation.

The consumers are hereby cautioned against replacing these primary fuses until this change has been made and definite advice obtained from the engineers doing this work.

MAY OIL STREET TO ALLAY DUST

The town board is considering the expediency of trying the effect of oil on the streets as a means of allaying the dust which has been growing almost intolerable since the shortage of the water supply compelled the town department to economize in the use of water for sprinkling. The oil producers of the coast have been invited to send in bids for a regular supply, providing the board decides to adopt the system. As the matter now stands arrangements will be made to test the oil surface on one block by distributing it over the surface from the regular sprinkler. After the grade oil has been heated to the proper consistency to flow freely. Should oil be adopted its use could be extended to the residential districts where the water wagon never appears.

GEORGE WINGFIELD passed through Tonopah this morning on his way to Goldfield and will arrive here this afternoon.

H. C. BROUGHER, president of the Tonopah Divide, came up today from his home in Oakland for an indefinite stay.

W. E. PERRY, a nephew of H. C. Brougher and one of the pioneers of Tonopah, accompanied his uncle to the camp which he left sixteen years ago to make his home in Iowa.

J. R. MEAKER of Berkeley, who is interested in the Divide district is spending a few days in camp.

FRANK K. STALL, president of the New California Tonopah Mining company, returned this morning from a visit to the coast.

S. D. LANDECKER of the San Francisco Stock Exchange, arrived today to put in some time on the Divide.

JACK SAULSBERRY, the Kawich cattle magnate, came over from Goldfield last evening.

F. O. BROILL, engineer of the Nevada Public Service Commission, is in town in response to the invitation of the Divide-Tonopah Chamber of Mines to inquire into the water supply.

EMIL FISCHER, one of the live wires of the San Francisco Stock Exchange joined the bunch that is doing the Divide district.

HARRY RECORD, state agent for the Armour products, came in this morning from Reno.

R. M. HAMPTON, superintendent of the Spanish Belt Mining company, motored in from that camp last evening.

H. L. TERWILLIGER, formerly the manager of the Verdi Lumber company and now coast manager for the Ingersoll-Rand Drill company, is here to look after the interests of his firm in the drill contests.

JULIUS BARND, manager of the Spanish Belt mines, returned from Barcelona last evening and reports the property looking better than ever.

TELEGRAPH DASHES RAILROAD TELEGRAPHERS TAKE COMMERCIAL BUSINESS

(By Associated Press.)
ST. LOUIS, Mo., July 1.—Railroad telegraphers were instructed today to resume handling Western Union and Postal commercial messages which were discontinued June 12, in connection with the commercial telegraphers' strike.

President Marion's order to the railroad telegraphers, said the action was taken because of the failure of the commercial operators to make their strike effective and also of the obligation of the order to the public and the railroad administration. However the members were instructed to refrain from handling any excess business diverted to the railroad offices by commercial companies.

GRASS VALLEY STRIKE SETTLED

GRASS VALLEY, July 1.—The leading mines of this district resumed operations yesterday after being closed for two weeks. The strike in which 1000 men participated was settled on a basis whereby the men are to be given a 10 per cent annual bonus. The pumps in the big mines started work and within a few days conditions here will probably be normal again.

Stock Subscriptions Emancipator Divide

A limited number of shares of the Emancipator Divide Mining Co. is offered for local subscription for a short time only at 15 cents a share.

All persons wishing to avail themselves of this stock should apply to the secretary at the office of the company, Stewart Building, Tonopah. The stock will be listed in a short time. The company is well directed and officered. Work has been under way for several months past with encouraging results. It is believed that purchases of this stock will result in a splendid profit in the near future.

R. T. LEONARDS

MRS. MINNIE CLARK, daughter of Mr. and Mrs. E. A. Tomeroy of Tonopah, has been appointed to a vacancy occurring in the local post office. Mrs. Clark formerly worked in the post office at Las Vegas.

STEVE PAVLOVICH returned today from a two weeks visit to Reno. MR. and MRS. HAMILTON REID will leave in the morning for Lake Tahoe where they will spend a short vacation before resuming their tour which will take them to Reno, Sacramento and San Diego.

H. M. WALMSLEY, representing the Remington typewriter, is visiting Tonopah from Reno.

RALPH LOCKE, son of Sherman Locke, of the Mizpah Buffet, arrived Sunday from San Francisco for a visit to his father.

Notice to Customers of Sewer Company

On and after July 1st the office of the Tonopah Sewer and Drainage Company will be located in Crumley Building, corner Erie-Main streets and Everett avenue, where all bills are payable.
